

# Isanti Soil and Water Conservation District

## 2018 Fee Schedule

January 16, 2018

**Purpose of this Document**

This document includes fees for services that the Isanti SWCD routinely provides to residents and other organizations. It does not include all services potentially offered as we continually adapt programs and services to address the natural resource needs. Custom project proposals may be developed upon request based on the rates indicated in this schedule.

**Additional Agreements & Prepayment**

The Isanti SWCD frequently requires work contracts to outline the responsibilities of the parties and to detail the nature of the service to be performed. Prepayment for all, or a part of the agreed upon amount may be required.

**Disclaimer**

The Isanti SWCD reserves the right to modify this fee schedule at any time and offer customized fees that deviate from this document. We also reserve the right to refuse to provide services at our sole discretion for reasons including but not limited to the public benefits provided and staffing limitations. The Isanti SWCD supports equal opportunities and civil rights for all individuals regardless of race, color, religion, national origin, sex, age, marital status, physical or mental handicap.

**Hourly Rates**

The following hourly rates shall be used to calculate fees for service, unless otherwise specified in this document.

<b>Classification</b>	<b>Position*</b>	<b>Hourly Rate</b>
Administrative	Administrative Assistant	\$40.52
Technical Support	Technician-level positions	\$49.32
Technical Specialist	District Manager, Specialist-level positions	\$66.47

\*All positions are not necessarily listed. Positions will be billed according to their classification in the current Isanti SWCD Handbook and current billing rate based on the BWSR Calculator.
