2019 Tree and Shrub Ordering

Offering:

- Bare root seedlings (bundles of 25)
- Container trees
- Six foot bare root trees

Need not be an Isanti County resident to order.

Keys to Planting Success:

- Select species based on your site conditions—sun/shade, soils, moisture. See the tree descriptions on our website.
- Plant as soon as possible after receiving your trees. If delay is necessary, keep roots moist but not submerged. Wet newspaper draped over the roots in a plastic bag works well.
- Water for the first year, if possible, when rainfall is low.
- Fertilize after the first year.
- Space plants for their full grown size. Fill in with smaller, shorter species for interest.
- Some six-foot species such as river birch benefit from “sweating.” Sweating involves keeping roots wet and placing wet burlap over tree tops to force bud break before planting.

Plandskydd:

Serious repellent for deer, rabbits, chipmunks, voles, and others. Made from 100% natural ingredients including dried blood, vegetable oil, and water. Available in spray or granular.

Apple and Plum Note:

Two different varieties are needed to pollinate each other. The fruit will not be a mixture of the two varieties; it will have the characteristics of the tree it grows upon.

Order Deadline:

Friday, April 19, 2019 or when stock is depleted. We will sell out of most species; so order early.

Tree Pickup:

Saturday, May 4th. 8:00am — Noon

At the Isanti County Fairgrounds. Subject to change.

Reminder postcards will be sent in April.

Late Pickup Fee:

\$5. Appointment necessary. Location TBD.

Policies:

Bundles of 25 will not be split.

We reserve the right to substitute sizes and stock.

Tree sizes are approximate.

Because of the perishable nature of trees and shrubs, the District is not responsible for their condition after the pickup dates. Any complaints of trees not budding must be received by June 15.

Questions:

Tree descriptions are on our website—IsantiSWCD.org
