

# David Stamm No Till

## North Branch/Oxford Township

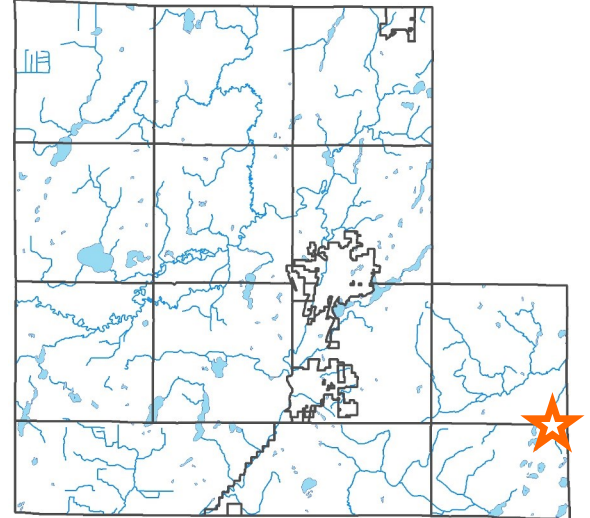

No Till

### Project Summary

This project includes the first year of a three year contract for No Till in the Lower St. Croix Watershed.

The goals of this practice is to improve soil health by reducing erosion, improving soil structure, holding moisture, reducing soil compaction, and increasing infiltration by reducing the amount of soil being disturbed by tillage.

This project is funded through the Lower St. Croix Watershed Based Implementation Funds.
